

If identical high bids are received, the tying high bidders will be requested to submit follow-up sealed bids until a high bid is received. All tie-breaking sealed bids must be submitted within 15 minutes following the Sale Official's announcement at the sale that identical high bids have been received.

The lease issued as a result of this offering will provide for payment of an annual advance rental of \$3.00 per acre, or fraction thereof, and of a royalty payment to the United States of 12½ percent of the value of coal produced by strip or auger mining methods and 8 percent of the value of the coal produced by underground mining methods. The value of the coal will be determined in accordance with 30 CFR 203.250(f).

Bidding instructions for the tract offered and the terms and conditions of the proposed coal lease are available from the Wyoming State Office at the addresses above. The case file, WYW127221, is available for inspection at the Wyoming State Office.

Dated: June 20, 1997.

Alan R. Pierson,

State Director.

Notice of Inventory Completion for Native American Human Remains, Associated Funerary Objects, and Unassociated Funerary Objects from Indian Island, CA in the Possession of the Clarke Memorial Museum, Eureka, CA

AGENCY: National Park Service, DOI.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003 (d), of the completion of an inventory of human remains, associated funerary objects, and unassociated funerary objects in the possession of the Clarke Memorial Museum, Eureka, CA.

A detailed assessment of the human remains was made by Clarke Memorial Museum professional staff in consultation with representatives of Blue Lake Rancheria, Bear River Band of the Rohnerville Rancheria, and Table Bluff Rancheria of Wiyot Indians.

At an unknown date, human remains representing at least one individual were removed from Indian Island, CA and donated to the Clarke Memorial Museum by unknown person(s). No known individual was identified. The 1,681 associated funerary objects include pine nut beads, clam disc beads, charred wood fragments, and abalone fragments.

The other 2,680 cultural items include pine nut beads, clay balls, abalone fragments, animal bone fragments, pebbles, and olivella shells believed to have been recovered from other Native American burial sites on Indian Island, CA.

Limited accession information indicates these human remains and cultural items came from Indian Island, CA. In February 1860, Indian Island was the site of a massacre of people of the Wiyot Tribe, the only inhabitants of the island at the time. This individual has been determined to be Native American based on the associated funerary objects. The funerary objects and cultural items are consistent with known Wiyot traditional funerary practice. Consultation evidence indicates the survivors of the 1860 massacre became

part of the Table Bluff Rancheria of Wiyot Indians.

Based on the above mentioned information, officials of the Clarke Memorial Museum have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of at least one individual of Native American ancestry. Officials of the Clarke Memorial Museum have also determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 1,681 objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Officials of the Clarke Memorial Museum have determined that, pursuant to 25 U.S.C. 3001 (3)(B), these 2,680 cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of an Native American individual. Lastly, officials of the Clarke Memorial Museum have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains, associated funerary objects, and unassociated funerary objects and the Table Bluff Rancheria of Wiyot Indians.

This notice has been sent to officials of the Blue Lake Rancheria, Bear River Band of the Rohnerville Rancheria, and Table Bluff Rancheria of Wiyot Indians. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains, associated funerary objects, and unassociated funerary objects should contact Claudia Israel, Director-Curator, Clarke Memorial Museum, 240 "E" Street, Eureka, CA 95501; telephone: (707) 443-1947, before July 28, 1997. Repatriation of the human remains, associated funerary objects, and unassociated funerary objects to the Table Bluff Rancheria of Wiyot Indians may begin after that date if no additional claimants come forward.

Dated: June 19, 1997.

Francis P. McManamon,

Departmental Consulting Archeologist, Manager, Archeology and Ethnography Program.
